# GLASS HUMMINGBIRD FEEDER

Review all information before using this product. Save this manual for future reference.

## CHOOSING A LOCATION

Place feeder in partial shade. Hummingbird food will spoil less quickly when feeders are kept away from direct sunlight. Hang feeders 3-4 feet away from a window to prevent bird collisions.

## FILLING

Use an injector to refill hummingbird food.

## CLEANING

1. Mix a cleaning solution of 1 part vinegar and 2 parts hot water. Separate all components, place the plastic components in the cleaning solution to soak.
2. While the plastic components soak, clean the inside of the glass feeder using a soft bottle brush. Then, scrub the plastic components.
3. Rinse all components thoroughly, ensuring all residue and cleaning solution have been removed.
4. Allow components to air dry before refilling.

## SAFETY STATEMENTS & WARNINGS

- Do not use harsh chemicals or abrasive materials to clean the unit as they may damage the product and void the product warranty.
- Do not hang the feeder too close to buildings or objects that may break the feeder during windy conditions. Storing the feeder indoors during high-wind conditions is recommended.
- Store indoors during freezing temperatures as exposure to freezing weather may cause the feeder to crack or break.

**Any modification to the product or failure to follow recommended care will void the product warranty.**

*If the product was damaged during transit, please contact our customer service team through one of the methods mentioned at the top of page 1. Please have the item number and order information ready to expedite response time.*
